

Elementary Building Closure Schedules

2021-2022

Camp Hill School District

ComputerHope.com

INTRODUCTION

The Camp Hill School District Plan now allows the opportunity for your child to receive instruction as a Camp Hill student in two ways: as a 5-day in-person learner or through the Lion Academy.

In the event of a 24 to 72-hour closure of a school building or the district, in-person learners would utilize the Building Closure Schedule, but instead of in-person instruction in the building, they will utilize Schoology to access lessons and log in for attendance purposes each scheduled period.

If your child is utilizing the Lion Academy as the learning option, nothing will change. He or she will have access to a curriculum developed to match state standards and access to teachers that are provided in the Lion Academy learning platform. There will also be contact maintained with the district's distant learning coordinator to assist with any questions.

ATTENDANCE

In the event we need to provide remote instruction attendance will be based on a combination of login into Schoology during designated times as shown on the grade level schedules and completion of specified assignments

SCHOOLY EXPECTATIONS

- All communication with students and parents should occur through Schoology.
- Schoology will still be used by all teachers and staff.
- All online instruction, K-12, must be delivered through Schoology, the Camp Hill School District's Learning Management System.
- The links below provide both written and video introductions to the Schoology system.
 - [Getting Started on Schoology for Parents](#)
 - [Video: Schoology for Parents](#)

REMOTE ACTIVITIES & LEARNING EXPERIENCES

Activities include, but are not limited to, discussion forums, assignments, external digital tools, and other media accessed by students in Schoology. The activities must also be tied to the stated objectives and standards of the course.

When designing engaging learning experiences, teachers will consider the following:

- The activities will be student-centered where the teacher is facilitating the experience rather than becoming the “sage-on-the-stage.” Live instruction may be a combination of live lectures, opportunities for students to raise their hands and ask questions, group work, interactive activities, and other opportunities for students to engage in collaborative or differentiated activities.
- The learning experiences will be manageable but also challenging.
- Group work may be included. This can be accomplished by using the breakout room feature in Zoom during live virtual teaching, or by assigning asynchronous work to students that require them to collaborate with other students.
- Students will receive feedback on their learning through Schoology. Feedback will be based on the results of these assessments, reflections, and evaluations.

REMOTE GRADING

Grading for remote learning will be consistent with grading practices in the brick-and-mortar setting. Students should submit assignments and complete assessments in accordance with the policies and procedures established by the teacher in each course. Grading requirements for each course will be posted by teachers in the Schoology course.

SCHOOLY TIPS FOR STUDENTS

- Check your course agendas daily. This practice will ensure that you are prepared for each of your classes every day.
- Check your Schoology calendar daily. You can download your Schoology calendar to your iOS, Outlook, or Google calendars.
- Check your Schoology announcements and updates. You can log in to Schoology to see them or you can have them sent to your mobile device or email.
- Stay in communication with your teacher. Log in to your course, check your

Schoology messages, subscribe to Schoology course notifications, and know your teacher's office hours, contact information, and/or availability.

- Be an active participant. Complete all readings, participate in discussions, and submit activities and assessments on time.
- Be proactive. Pay attention to due dates and don't expect your teacher to remind you when deadlines are approaching.
- Let someone know if you are struggling. Students need to communicate with teachers or counselors when they need assistance. A student cannot be helped if the problem is not known.

BUILDING CLOSURE SCHEDULES

Building Closure Schedule for Kindergarten

	Monday (Remote)	Tuesday (Remote)	Wednesday (Remote)	Thursday (Remote)	Friday (Remote)

- Teachers in Grades K-5 will use Schoology to post daily assignments, recordings, etc. for Monday - Friday. Some assignments may include live or recorded lessons and videos by the teacher.
- Live lessons will be 20-30 minutes and may consist of English/Language Arts, Math, Science/Social Studies and/or Specials.
- Specialists (Art, Music, P.E., Guidance and 5 C's) teachers will provide both live and asynchronous lessons at the designated times.
- During the "*Schoology: Teacher Created Learning Activities*" block, teachers may also hold additional live sessions for small groups, intervention support, office hours, etc.
- The MTSS block may be assigned by the teacher for small group instruction lessons (i.e. Title 1 Reading, extra support for content areas, ELL, Special Ed, etc.).
- We will have designated time at each grade level for assessments, progress monitoring checks, project work, small group intervention/enrichment, and/or additional teacher office hours.
- Band lessons will be scheduled on a specific day based upon your grade level.
