

Camp Hill High School

Digital Design I

Technology Education

Your job is to create a movie poster for your fictitious movie. Carefully consider placement and formatting of the title, actors, and colors for your poster. Also include a tagline and other promotional text to achieve maximum visual impact for your audience.

You may not just copy and paste images into your poster. You may trace items or create your own. Background images may be used. Sketches can be created and scanned.

Your poster will be graded on the following:

*Movie Title*

*Actors*

*Evidence of Layer Styles*

*Evidence of Filters*

*Neatness*

*Promotional Text*

*Tagline(s)*

*Background*

*Originality/Creativity*
