## MIDDLE / HIGH SCHOOL RENOVATIONS NEAR COMPLETION

Renovations to the Middle and High School continued to make significant progress throughout the summer. El Associates, a full-service architectural and engineering firm, and the Camp Hill School District have continued to work together to ensure the completion of critical renovations. Every effort has been taken during the on-going COVID-19 pandemic regarding safety of all individuals to keep projects on track and provide the necessary updates to ensure the safety of students and staff moving forward.

Since the initial District-Wide Feasibility Study completed in 2018, El Associates has been working with the District to address building deficiencies and code compliance issues. Working through the long-range facilities plan developed by El Associates, the District decided to begin with addressing water infiltration issues. The entire building envelope was re-sealed last summer to alleviate any further water intrusion. Additionally, the facility saw the replacement of exterior windows and doors.

During summer 2020, the entire facility underwent major interior modernization renovations. Both building entrances and the administration areas were reconfigured to provide secure vestibules along with updates to interior finishes for an improved indoor environment. Additionally, some educational spaces were reorganized to accommodate new layouts for enhanced learning experiences. Construction for this phase is scheduled to be completed by the beginning of the new school year. The remainder of the work will be completed during winter break and summer 2021.
